

# Darkness

Demons and other monsters capable of creating magical darkness can see through their own darkness and the darkness produced by allied monsters.<sup>1)</sup>

<sup>1)</sup>

This is not explicitly stated anywhere to my knowledge, however it only makes sense. As a strong example, note that the Type VI demon (Balor) “sheds” darkness in a 10' radius, implying that the ability is meant to be used in an area around the monster. Even with 75% magic resistance, one cannot imagine that the intention was for the Type VI to blind itself 25% of the time.
