

Harpoon

A harpoon is a weapon described on UA 77.

A hit **snags** the target. When snagged, the wielder of the harpoon can take a [G action](#) to **drag** the target, which does 1 point of damage to the target and moves them 1" closer to the wielder.

To get un-snagged:

- The target must have INT 2 or higher.
- The target must have some means of dislodging the weapon head or severing the line. If severing the line, the line is automatically hit, and damage is rolled. 2 points of damage sever it.
- A saving throw vs poison is allowed (no bonuses to saves vs actual poison are granted; "poison" is merely the saving throw category here). Failure means the snagged creature is **dragged** as above.

See UA 77 for additional rules and stipulations. Also see the [lasso](#) and [net](#).
